

Household/Craft

No Silic

Technical data sheet
n° 125 Rev. 28/03/2014

Special silicone remover

Category:

- Glue and resin remover

Applications:

- Silicone remover

Advantages:

- Removes also hardened silicone

Applications

No Silic eliminates silicone residues from window glass, ceramics, tiles, metals and untreated woods.

Thanks to the high solvent power and slow evaporation, No Silic swells and dissolves both fresh and thickened silicone mastic, making it easily removable by mechanical means, such as spatulas, sponges or scrapers.

No Silic should not be applied to materials or surfaces sensitive to chemical attack, such as plastic, paint and rubber.

Fields of application

The product facilitates the elimination of silicone, used to seal or fix assembled parts, in many activities, including:

- Glassmakers
- Furniture industry
- Hobby and D.I.Y.
- Plumbers
- Artisans

Method of Use

Remove the excess silicone with a spatula or a scraper, then apply No Silic with a cloth or a brush and wait a few minutes. Rub to remove the softened silicone. Repeat the operation if necessary.

Product for professional use. The manufacturer declines all responsibility for any damage caused by an improper use of the product.
