Technical data sheet
n° 883 Rev. 03/10/2016

Low foam cleanser for bedpan washers

Category:

- Special cleansers

Applications:

- Cleans bedpans used in nursing homes

Advantages:

- Great efficacy
- Highly concentrated product

Product for professional use. The manufacturer declines all responsibility for any damage caused by an improper use of the product.

Applications

Depal is a product based on quaternary ammonium salts, characterized by a strong detergent activity.

Depal can be used in bedpan washers.

It can be used with all materials: plastic, rubber, steel and light alloys. Very stable over time, easy to apply, its formula has been specifically developed for this use.

The product is widely used in the hospital sector and in retirement homes.

Method of Use

Select the program according to the manufacturer's instructions for the bedpan washing machine.

Normally the dosage is equal to 5-10 g of product per litre of water (0.5-1%).
