Mogol WC

Data sheet n° 374
Rev. 28/03/2014

Category:

- Viscous descaling acid

Applications:

- Removing limestone and scaling from WC

Strengths:

- High efficacy
- Pleasant perfume

CAUTION:

Do not use

Mogol WC with other products, in particular bleach and chlorine tablets: dangerous gases (chlorine) can be released.

Product for professional use. The manufacturer declines all responsibility for any damage caused by the improper use of the product.

Descaler for toilets

Applications

Mogol WC is a highly effective descaler particularly suitable for removing limescale from water, bathtubs, sinks, bidets and shower trays.

- acts quickly, dissolving limestone stains and yellow lines;
- eliminate bad smells
- It acts more firmly than normal water and sanitary products, because it is very viscous
- leaves a pleasing scent of citrus fruit

Where to use it

For its features, Mogol WC is particularly suitable for domestic applications.

How to use

Pour Mogol WC on the walls of the water, especially on the yellow spots, leave for about half an hour, depending on the consistency of the dirt, so slide the water.

For cleaning bathtubs, sinks, bidets and shower trays, leave the product for a few minutes, then rinse abundantly.

Avoid product contact with metal and chrome plated metal parts.
