Basta Puzza

Technical data sheet
n° 543
Rev. 07/04/2016

Category:

- Anti-limescale
- Anti-odour

Eliminate odors from toilets and drains Anti-limescale

Applications

Basta Puzza completely eliminates bad smells from toilets, shower drains, sinks, bidets and any other stagnation of liquids or waste water. Basta Puzza prevents bad smells caused by stagnant organic residues or water reflux due to sudden changes in atmospheric pressure from rising from the drains. It also has an anti-limescale action

How to use

Pour a minimum dose of product into the toilet and into the drains, spraying from the nozzle for about 3/4 seconds. Leave it on for at least 30 minutes before running the water. The effect will be immediate and persistent over time (3-4 days). Repeat the operation as needed and at least once a week.

Usage tips

Be careful not to wet clothing, fabrics, wood, metals or plants with the product. If this happens, wash off the splashes with plenty of water. During use, protect your hands with rubber gloves and avoid spraying on clothing. It is also advisable to check compatibility with the substrate beforehand on a small part of the surface to be treated.

Product for professional use. The manufacturer declines all responsibility for any damage caused by an improper use of the product.
