

Industry Line

Master Clean/DC Foamy

Technical Sheet n° 123
Rev. 18/02/2014

Category:

- Degreaser
- Detergent for the food sector

Applications:

- Removal of oils and fats
- Daily cleaning

Strenghts:

- Versatility
- Foamy

Product for professional and industrial use. The manufacturer declines all responsibility for any damage caused by the improper use of the product.

Applications

Specific product for removal animal fats in salami factories, poultry, sheep, pork and beef slaughterhouses.

Excellent for washing floors, walls, cold rooms, lines, Teflon counters, containers, plastic boxes, insulated vehicles, rotisserie, and steel tops.

The product is also indicated in the refuse collection sector.

How to use

Dilute in water between 5 and 20% depending on the amount of dirt, distribute on the previously moistened surface free from macroscopic residues with a sprayer, a synthetic sponge or a brush. In case of very stubborn dirt, rub the surface to remove it. Leave to act for a few minutes and rinse thoroughly or in any case until completely removed.

As the product is highly alkaline, it should not be used on aluminum or light alloy parts (slicers, scales, etc.), glass, etc.
