

## Industry Line

# No Static

Technical Sheet n° 150  
Rev. 18/06/2014

### Category:

- Product for the textile sector

### Applications:

- Avoids the accumulation of electrostatic charges on yarns

### Strenghts:

- Unique product
- Easy to use

Product for professional use. The manufacturer declines all responsibility for any damage caused by the improper use of the product.

## Applications

No Static is the result of tests and experimentations carried out in cooperation with the most important Italian textile companies.

Its formulation is based on a balanced mix of extra pure talc, at different particles sizes, of an anti-caking product and of a special additive.

The products avoids the accumulation of electrostatic charges on yarns, allowing thus a good degree of gliding and, at the same time, a considerable productive improvement.

## How to use

No Static can be used manually, by means of vibrating screens or micro-dosing augers in the point where the yarn is more easily accessible.

## Technical specifications

Aspect	Powder
Color	White
Smell	Odorless
Density(20°C)	0,780 g/cm <sup>3</sup>
