

Industry Line

Pres /L

Technical Sheet n° 151
Rev. 19/06/2014

Universal cutting oil

Category:

- Cutting oil

Applications:

- Lubricates and cools tools in heavy operations

Strengths:

- Effectiveness

Applications

Pres/L is a cutting fluid composed of paraffinic mineral oils mixed with adhesive substances and anti-rust and anti-wear additives. Thanks to its balanced formula, it lubricates and protects metals, guaranteeing perfect processing and at the same time safeguarding the tools.

Given its very low chemical reactivity, Pres/L is compatible with all metals.

Fields of use

Pres/L is suitable for use in metalworking such as:

- cut
- milling
- drilling
- thread
- tapping

How to use

It is recommended to use the product regularly in order to provide, in addition to total lubrication, refrigeration of both the tool and the workpiece.

For the rest, follow the instructions of the machine tool.

Technical specifications

Aspect	Clear liquid
Color	Yellowish
Viscosity (40°C)	32 cSt
Density (15°C)	0,874 g/cm ³

Product for professional and industrial use. The manufacturer declines all responsibility for any damage caused by the improper use of the product.
