Biocide based product for surfaces

Category:

-Surface Treatment
Products

Applications:

- Eliminates problems
due to bacteria and
algae

Advantages:

- Ready to use
- Broad spectrum of
action

Applications

Product is based on a cationic polymeric biocide used for the disinfection of surfaces (PT2 Disinfectants and algacides not intended for direct application on humans or animals)

The biocide contained is stable over a long period of time and is active against:

- Enterobacter aerogenes,
- Sphaerotilus natans
- Desulfovibrio desulfuricans
- Pityrosporun ovale,
- Aspergillus niger,
- Penicilium expansum,
- Chlorella vulgaris,
- Chlorococcum hyposporum,
- Phormidium autumnale
- K. Pneumoniae
- P. Aeruginosa
- Clostridium perfringens

Composition: Methanamine, N-methyl-, polymer with 2-(chloromethyl)oxirane (polymer) g 0.3; coformulants q.s. to g 100.

Method of Use

BLM200 ready to use should be used as a ready-to-use product, spraying the surface, leaving it to act for a few seconds.

Do not mix or use at the same time with chlorine-based products

Product for professional use. The manufacturer declines all responsibility for any damage caused by an improper use of the product.
